Children's Hospital of Philadelphia
PolicyLab

Register for Our Upcoming Refugee Health Webinar

Date:

Tuesday, March 06, 2018

PolicyLab will be hosting our second-ever live webinar on April 3 at 2 p.m. EDT. Our Katherine Yun, MD, MHS, and collaborator Blain Memo, MPH refugee health coordinator at the Minnesota Department of Health, will present a webinar titled “Refugee Health Care in the U.S.” that examines multiple facets of refugee health care for children and their families. They will review the continuum of care from overseas to arrival in the U.S. for refugees; two common models of refugee health care in the U.S.; how to standardize care for refugees; and steps for health systems and community partners to ensure the best care for refugees. Space is limited, so register today and find more information here.
