

Health Care Coverage, Access & Quality: A Snapshot of a PolicyLab Research Portfolio

Date:

Oct 2018

[Download Material](#)

PolicyLab's Health Care Coverage, Access & Quality research portfolio is working to ensure that families can afford the health care their children need, and that all children receive the right care, in the right place, at the right time. By researching and changing the way health care services are delivered through integration of interdisciplinary care teams that leverage technology to meet children and families where they are, we can improve access to and quality of health care for all youth.
