PolicyLab Welcomes New Health Policy Director

Date:

Friday, December 20, 2019

We are excited to introduce our new Health Policy Director, Rebecka Rosenquist! Rebecka comes to PolicyLab with an extensive background in health policy. She most recently served as the director of state engagement for Shatterproof ATLAS—a quality measurement system for addiction treatment programs being piloted in six states—where she led state agency partnerships and championed development of meaningful stakeholder relationships. Before that, Rebecka was the associate director for health policy at the Leonard Davis Institute of Health Economics at the University of Pennsylvania.

As Health Policy Director at PolicyLab, Rebecka will be responsible for setting and executing the center's policy agenda and elevating PolicyLab's research and profile among numerous policy stakeholders. As part of this effort, she will determine strategic priorities that will position timely research within the center into the policy realm and align the center's policy goals with each research portfolio.

We are thrilled that Rebecka is taking on this leadership role that will continue to drive PolicyLab in its mission to achieve optimal child health and well-being by informing program and policy changes through interdisciplinary research.
