Jenna Kiely (she/her) is a clinical research coordinator at PolicyLab and Clinical Futures at Children's Hospital of Philadelphia (CHOP). She works with Dr. Joanne Wood on examining the efficacy of PriCARE, a six-week program that aims to strengthen parent-child relationships, as well as CAPNET, a multi-site initiative to enhance child abuse prevention and screening.

Prior to joining CHOP, Ms. Kiely received her Master of Science in Psychology from Drexel University, where she implemented a universal model of the Incredible Years Program to second graders in Philadelphia while conducting research on caregiver adherence to medical recommendations and parent-child relationships during the COVID-19 pandemic. She earned her Bachelor of Science in Psychology from Northeastern University. Ms. Kiely is interested in service accessibility, socioemotional development and the utilization of technology in delivering interventions.
