Madeline DeMarco (she/her) is a resource coordinator at PolicyLab and Clinical Futures at Children's Hospital of Philadelphia. In this role, Ms. DeMarco provides administrative support to several principal investigators and their research teams. Additionally, she contributes to the ongoing diversity, equity, and inclusion initiatives for PolicyLab and supports both PolicyLab and Clinical Futures communications teams.

Prior to joining PolicyLab and Clinical Futures, Madeline attended Saint Joseph's University and received both her Bachelor of Arts in Political Science and her Master of Science in Public Policy. She has experience leading research teams about food insecurity and childhood poverty. Additionally, she held an executive assistant and program coordinator role for a best-selling children's book author.

Ms. DeMarco's research interests include health care equity and adolescent well-being.
