Children's Hospital of Philadelphia
PolicyLab

Anireddy Reddy
MD, MSHP

Faculty Member

Anireddy Reddy (she/her) is a faculty member at PolicyLab at Children's Hospital of Philadelphia (CHOP), a pediatric critical care attending at CHOP and a senior fellow at the Leonard Davis Institute of Health Economics at the University of Pennsylvania. Dr. Reddy's research interests have included community-based participatory research around racism in health care, disparities in pediatric sepsis, and firearm safety/injury prevention. Her career aspiration is to leverage her intensive care experiences to drive research and inform policy in order to reduce pediatric morbidity and mortality.

Dr. Reddy graduated Summa Cum Laude from the University of Colorado with majors in neuroscience and molecular biology and a minor in civic leadership. She served in the Americorps in Denver Public Schools prior to attending University of Colorado School of Medicine, where she served as class president for four years. She additionally was selected for the CU-UNITE urban underserved track and served as director for C-STAHR (Community-Students Together Against Healthcare Racism). She later completed her pediatrics residency at Children’s National in Washington D.C., during which she participated in the community health track and the George Washington Health Policy Fellowship. She completed her pediatric critical care fellowship at CHOP and simultaneously obtained her Master of Science in Health Policy at the University of Pennsylvania.
