Celebrating PolicyLab’s 15th Anniversary

Date:

Tuesday, December 12, 2023

PolicyLab is celebrating its 15th anniversary this year! Since the center was founded in 2008, our team has grown to include more than 35 faculty and over 85 professionals spanning interdisciplinary fields including medicine, behavioral health, social work, public health, public policy and communications.

This exciting milestone brings a renewed focus and energy around our values and our vision of all children, teens, and caregivers having access to the evidence-informed, sustainable programs and policies they need to be their healthiest selves.

In recognition of our anniversary, PolicyLab team members and alumni shared how their careers have grown since joining and how they’ve seen the center evolve over time. Read more here.

As we look ahead, we’re committed to supporting our experts as they lead innovative pediatric health research efforts that aim to have a positive impact in our community and are grounded in a framework of health equity.
