PolicyLab research featured in CHOP's 2012 Community Benefit Report

Date:

Thursday, October 31, 2013

CHOP's 2012 Community Benefit Report, entitled "Better Together," allows CHOP to publicly demonstrate the staff's dedication to improve the health and wellness of children and also highlights some of the contributions the hospital has made to the broader community over the past year. PolicyLab's research is featured on page 23, where it highlights two of our Evidence to Action Briefs, "SERIES: An Integrated Approach to Supporting Child Development" and "Preventing Adolescent Pregnancy."
