

Health Profiles of Newly Arrived Refugee Children in the United States, 2006–2012

Date:

Nov 2015 Download Material

Data are necessary for developing public health screening guidelines, but this can be challenging when working with vulnerable, dispersed populations, such as resettled refugees. We created the <u>first large-scale dataset</u> for refugee children who arrived to the United States between 2006 and 2012.
