

Short Course on MARS 2024

DRAFT AGENDA

Welcome to MARS!

The Short Course on Multilingual Approaches to Research Studies (MARS) is an **in-person** event at the Roberts Center for Pediatric Research in Philadelphia..

MARS is a course, not a conference. It is built around interactive, inclusive, interdisciplinary small group work.

We suggest you bring the following (optional but recommended):

- Examples from your own research—such as aims pages, translation protocols, interview guides, data dictionaries, and consent documents—that you want to incorporate into small group work.
- Cell phone with video recording capabilities & earphones
- Laptop computer
- Refillable water bottle

LOGISTICS: Masking in non-clinical areas is optional. This may change. *If you become ill and cannot attend, please let us know.*

The Roberts Center for Pediatric Research is accessible by foot, regional rail (via Penn Medicine SEPTA station), and bus. There is also a CHOP surface lot on Schuylkill Avenue, and parking vouchers will be available if you submitted a request via our pre-MARS survey. The Roberts Center is a pleasant walk from the University City neighborhood, as well as Center City.

Main address:

Roberts Center for Pediatric Research
Room 1120A/B (1st Floor)
2716 South Street
Philadelphia, PA 19146

If you are driving:

734 Schuylkill Avenue
Philadelphia, PA 19146

Facilities include lactation rooms, gender neutral bathrooms, water stations, and a small café with indoor and outdoor seating. The Roberts Center is wheelchair accessible. Coffee and lunch will be provided.

Sincerely,

The MARS Team of Kate Yun, Priscilla Ortiz, Robert Schrauf, Nadège U. Mudenge, and Briana Brizill
