

# LANGUAGE SKILLS IN INFANTS AND TODDLERS

## WHAT IS THE GOAL?

To see if a 10 week language learning group helps parents teach their child language skills by talking with their babies and toddlers

## WHO CAN BE A PART OF THE STUDY?

Any parent who speaks English and has a child age birth to 42 months (3 1/2 years).

## WHAT WILL PARTICIPANTS BE ASKED TO DO?

- Answer a few questionnaires.
- Allow your child to wear a small recorder once a week. The recorder will count the number of words that your child hears.
- Some will attend a once a week language learning group. This group will last for 10 weeks.
- Some will have weekly check-ins by phone or email from study staff.

## WHAT ARE THE BENEFITS?

- Learn new ways to encourage your child's language skills.
- Compensation for doing the questionnaires.
- Books and snacks during 10 week group.

## I WANT TO HELP! WHO DO I CALL?

To discuss study participation, please contact Delitza at:

267-386-6690 or  
[babytalk@email.chop.edu](mailto:babytalk@email.chop.edu)

**COVID-19 Note:** All participation can be done remotely. Attend groups on line from any device. We will pick up and deliver study materials through contactless delivery, following updated CDC guidelines.
