POLICYLAB FORUM 2022

About PolicyLab's Forum

For the past 13 years, PolicyLab has been steadfast in working towards its mission to achieve optimal child health and well-being by informing program and policy changes through interdisciplinary research.

Knowing we cannot achieve improved child health outcomes by ourselves, we are partnering with AcademyHealth on this exciting forum that will convene regional leaders in children's health for a local and national look at how we can work together to tackle the most pressing policy and practice issues facing children, teens and their families.

Under the theme of "Bridging New Partnerships, Creating Change," PolicyLab's Forum is intended to propel forward innovative solutions around hot topics such as COVID-19 recovery, the youth behavioral health crisis, addressing social needs in pediatric settings, and caregiver health that policymakers, advocates, and researchers can collaborate on to ensure today's youth have every opportunity to become healthy, productive adults.
